

CHRISTO-LUBE® MCG 157

CHRISTO-LUBE® MCG 157 is a fully fluorinated grease thickened with PTFE which was developed for use in low-pressure systems where non-reactivity with chemicals including strong acids and oxidizers, fuels, solvents, etc. is an important factor. CHRISTO-LUBE MCG 157 is suitable for use in applications including gears, valves, screws, bearings, and in systems employing elastomeric and plastic seals, gaskets, and o-rings.
