## CHRISTO-LUBE® MCG 709RP

CHRISTO-LUBE® MCG 709RP is a fully fluorinated, medium viscosity PFPE grease thickened with precision PTFE and fortified with anti-corrosion additives. This grease operates under extreme temperature conditions, has outstanding stability with oxygen and in a vacuum and excellent compatibility with metals, plastics and elastomers. This medium consistency fluorinated lubricant is especially useful where non-reactivity with harsh chemicals, fuels and solvents is an important factor.
